Current Committee Description:

The Quality Advancement Committee is a collaborative effort to develop resources for the membership in the areas of clinical practice and person-directed care. Resources from Metastar, Quality First/Advancing Excellence, and the Wisconsin Coalition for Person Directed Care provide guidance as the committees identify their respective goals and objectives. As the collaboration moves forward it is the vision of this committee to provide the membership of WHCA/WiCAL with a compendium of valuable information that will guide them through the process of delivering the highest possible quality care for member facilities.

QAC Priorities:

- 1.
- 2.
- 3.
