Demystifying Payment Reforms

No doubt about it – health care payment reforms are a mystery to many. And yet, your organization's survival may depend on navigating complex new payment systems. In this session, we will demonstrate how the various payment reforms will impact senior living providers.

This session will demystify the impact of payment reforms such as value-based purchasing, accountable care organizations, managed care organizations, bundling, and Medicare Advantage Plans. This session will also identify actionable strategies for clinically integrating with acute care providers and for attaining the level of clinical excellence to succeed in the payment reformed world.

Objectives:

1. Analyze the impact new and future payment system reforms will have on your organization;
2. Develop strategies for episodic payments, value based payments, risk sharing, and acute care integration;
3. Understand how strategies may vary for rural and urban providers;
4. Discuss the Orthopedic Bundled Payment Initiative and the impact on delivery care.

Larry Lester, Partner LLP, Eau Claire and Co-Chair of the "WHCA/WiCAL Payment Council" will be leading the group of presenters for this informative workshop.
