

Infection Control At Your Fingertips...

Health-Key Infection Control Keyboard

Created in collaboration with a major hospital for both patient room and clinician use, this feature-rich keyboard is easy to set up, use and keep clean. Infection control features help keep patients and staff safe.

- **Smooth, Gorilla® Glass surface**
- **IP67 water-resistant & dishwasher safe**
- **Automatic notification when keyboard needs to be cleaned**
- **Adjustable cleaning frequency requirement**
- **Built-in touch pad, no need for a separate mouse**
- **Optional backlight for low-light situations**
- **Wired & wireless connectivity**
- **Rechargeable, with 10 day battery life**
