

Curavi Health: A partner for long-term, post-acute care

Our seamless telemedicine technology and utilization techniques enhance your facility's clinical performance. Curavi partners with long-term, post-acute care providers to ensure nurses have access to physicians for timely, after-hours resident care.

At Curavi, our unique partnership approach facilitates a culture change that enables you to deliver the highest quality of care across the post-acute journey. Our telemedicine educators work with you to ensure a smooth transition.

How Curavi ensures your telemedicine program is successful:

Curavi identifies telemedicine champions within your facility to ensure continuous communication, workflow improvements, and utilization to optimize resident care.

Medical Staff

- Working closely with the Medical Director to collaborate on clinical policies for their telemedicine program
- Calling each attending physician on staff to answer questions and gain support through physician-to-physician communication

Nursing Staff

- Ongoing, on-site training
- Technical and clinical support
- Leadership and support with the Director of Nursing
- Guidance on utilization tactics

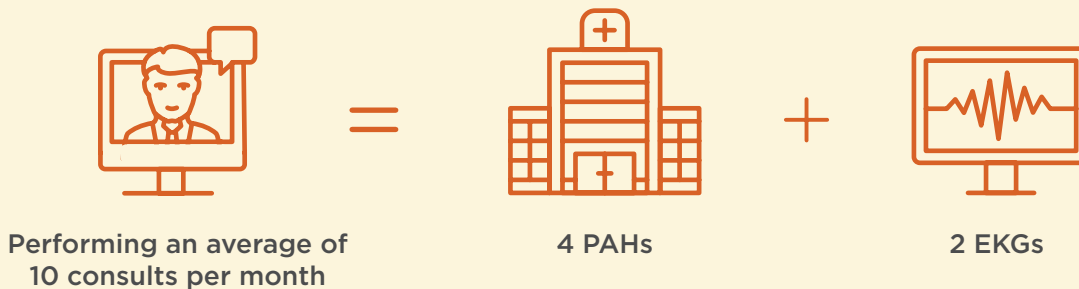

Administration

- Collaboration on telemedicine program to meet business needs and clinical goals and objectives
- Monthly reports
- Insights for optimal use
- Weekly partnership and status calls to provide guidance and utilization support

Optimize your facility's ROI

Leverage the full support and services from Curavi to achieve a strong return on investment.

Typical Curavi facilities can anticipate savings of at least \$12,000 each month by:

Calculations exclude additional value, which can be captured in VBP, census stabilization, and avoidance of on-call payments.

Curavi's Value:

Improve Clinical Results

- Lower readmission rates
- Treat more residents in-place
- Improve CMS 5-Star ratings

Save Money

- Achieve a positive ROI with one avoided hospitalization per month
- Increase network referrals
- Improve performance with respect to VBP penalties

Enhance Resident and Staff Experience

- Allow residents to be treated-in-place
- Provide ongoing clinical support for staff members
- Provide unrestricted access to clinical support off-hours
- Improve staff workflows
- Enhance recruitment and retention
