WITH

# MENU Customization

There are two ways to do it:

- 1 build on a template
- 2 start from scratch

Menu customization is a great way to deliver person-centered care. Feeding people what they enjoy not only increases satisfaction, it helps them thrive. There are two ways to implement menu customization: Start with a Gordon Food Service® menu template and make your changes, or build a new menu from scratch.

#### Menus can be customized for:

- Average daily cost
- Style of recipes (scratch, convenience, etc.)
- Regional or residents' favorites
- Aligning the menu with the order guide

Building a cycle menu can be time-consuming. To get you started quickly, the Gordon Food Service Nutrition Resource Center has created menus available through Cycle Menu Management.

Menu customization\* goes one step further and customizes a Gordon Food Service menu template to your community preferences, helping you align with F-Tag 804. Work with your Sales Representative, and our Menu Specialist will adjust menus to match your needs. You will:

**Save time.** Our expertise and product knowledge means quick customization.

#### Focus on person-centered care.

Our team will work with your custom changes to help meet residents' preferences, supporting F-Tag 806 alignment. Your customized "always available" menu will help meet F-Tag 809, offering appealing options outside of traditional meal time.

**Benefit from expertise.** Combining our expertise and your operational knowledge, you get a customized menu that works for you.

**To learn more about getting started, contact your Sales Representative today.**
