HR Solutions

for the Senior Living Industry

We're Different Than The Other Guys

We have a different approach. Unlike the other guys, we don't serve businesses that have nothing to do with the care industry.

We only offer HR solutions to facilities offering home care, skilled nursing, senior housing, assisted living, disability services, and long-term care.

63% of our staff has experience working in the care industry.

Care is All We Do

We hire people from the senior care and disability care industries. Everything we do is built for the care industry.

Medium to Enterprise

Unlike other HR providers, our model is built to handle large care operations with 50-10,000 employees.

Care-Specific Services

Since we are built for you, our services are custom-designed to help drive better HR outcomes for care providers.

Tech for Care Providers

Our technology is built to ensure scheduling, time and attendance, reporting, and functionality meets our clients' needs.

Get a Solution that Works.

There are plenty of HR providers that relieve some HR burdens, but the one-size-fits-all approach just doesn't work when you have complex pay rules, variable-hour employees, HIPAA compliance, EVV questions, and more. When you have a question, you have to wait in a queue to talk to an entry-level HR specialist who doesn't understand the care industry.

Not with us. Have the peace of mind that when you call us, you'll get an answer specific to you. Curious how we can help you? Connect with us!
